Re: PS-Exchange - Online Data Translation

Dear Mr. Humphreys:

As you may be aware, Moldflow Corporation has filed a United States patent application on our invention entitled "Network Enabled Application Software System and Method." This patent application was filed in the United States on April 27, 2001 and was published on February 7, 2002. The application number is 09/844,466 and a copy is enclosed for your reference. Moldflow has also filed an International Patent Application under the Patent Cooperation Treaty, which was filed on April 27, 2001, with a priority date of April 28, 2000. The International Application Number is PCT/US01/13427 and it was published on November 8, 2001. A copy is enclosed for your reference. We will nationalize the International Application shortly.

We have recently become aware of your product, PS-Exchange 2.1 0 Online Data Translation. We have reviewed the product description available on your web site, www.delcam.com. Your product seems to employ technology similar to that described in our pending patent applications. The purpose of this letter is to insure that you are aware of our pending patent applications and to invite you to discuss with us Delcam's use of this technology. We look forward to hearing back from you in the near future.

Very truly yours,

Iion M. Henderson
General Counsel
